

## **Develop Powerful Intuition**

Hi everybody,

I want to share a part of Lesson 1 from my ***Develop Powerful Intuition*** course with you. To sign up for the whole course [Click Here](#). The sliding scale price is \$10.00 - \$40.00 for 4 lessons with auditory meditations.

## **Your Inner Voice**

Your beautiful intuition is your own inner voice guiding you through life. It's your spirit showing you the way. It has a voice, a feeling, and a signature. It makes pictures and creates tastes and smells. It speaks to you in so many ways: quickly and slowly, loudly and quietly, in whispers and in thunder storms, in movies and in still frame snapshots. And guess what? The way your intuition works is completely unique to you.

## **Trust Yourself**

Trusting yourself is fundamental to being more intuitive. Your intuition is already trustworthy. When you believe that it is already reliable, you begin to trust it even more. And another plus: It can be applied to any area of your life from business, to health, to wealth, to relationships, to spiritual guidance.

Much of the material in this course is original course work. I have developed this material over many years of studying and teaching the art of awakening your psychic abilities. I am mostly self-taught. My guides and angels taught me much of what I have learned. Other teachers have come up with similar ideas, yet it is truth that I am spirit trained.

I have also drawn from the fields of NLP, psychology and hypnotherapy and have applied the techniques I learned in those fields to developing my own intuition and teaching others how to use those skills to develop their own psychic and intuitive abilities. Now, it's your turn and I trust you will benefit greatly.

You will learn how to get strong, clear yes and no answers and develop discernment so you can recognize your intuitive voice even when you are hurried, stressed out or need

to access it on the quick. I will show you how to discern a warning sign from a fear and a whole bunch of other good stuff, so your intuition flows better.
