

Swaha Ron & Erica Mercado reflected on the Ormus collected on the Fall Equinox. While there were only 5 Barrels collected using the same salt and the same lye there was three noticeably different Ormus that came.

If you have any additional words to describe the energy please let me know!

1. Top Left: One Barrel was Collected with:
A Soft Red Gold Hue, Roses, Rose Essence, Motherly love, Birth
2. Top Right: Two Barrels were Collected with:
A Blue Hue, Hydrangeas, Calming, Deep Understanding, Peaceful
3. Bottom: Two Barrels were Collected:
Two Barrels with a Lavender Hue, Million Star Baby Breath, Expansion, Healing

It would appear that we are at the cutting edge of Ormus Supported Spiritual Consciousness
Discovery!!!!

It feels to me like a different Angel, Ascended Master, or Master Teacher touched each one of
the barrels with a Loving Intention that Lifted the Vibration of the Ormus Collected; each
unique, and charged with a Loving Blessings. Wow!

Ginger

It's a huge blessing from Mother Divine. The Goddess Inn her three forms (and with her three properties) as celebrated during Navrarathi, during the time of collection.

This came immediately through even before I literally "saw" the three pictures of the Ormus and before reading the description.
