3. [Coffee Wholesale USA.](#)

You purchased: large 14" Coffee Filters: I use two at a time to catch the Ormus because using only one filter allowed some of the Ormus to go through the filter.

- 8.** Drip System for Lye: I went Lows; however any home depo type of hardware store will have it most likely. I asked for some help. I asked for some plastic snap together fittings for a vinyl tubing to fit into with an on off valve. I also bought the bucket I am using to hold the Lye, at Lows. I drilled a hole 3/8 inch for the vinyl tubing to fit through and bought a Rubber Grommet, see below to seal the hole that the vinyl tubing goes through.
