

Hi everyone,

In this season of Angels, Elena gave me permission to share her story about connecting with her angel.

### **Elena's Story About Meeting Her Guardian Angel**

"My guardian angel stands behind me. When I meditate I feel her but I rarely see her. She feels lovely, like I'm home.

The experience I had when I asked my angel to come around in front and face me was quite a surprise. As I allowed myself to look, I saw she was very tall and slender with flowing robes and wings that were velvety and large.

She radiated waves of love to me. She is a dark purple angel and she helps protect the children of earth beneath her wings and within her robes. She is amazing and I am honored to have her as my own guardian angel."

Thank you Elena!

This story and many more are shared in my book and course:
